

Project 'KSHITIJ': A Journey of Transformation

SAKAR proudly presents the transformative journey of Project 'KSHITIJ,' an initiative dedicated to empowering young minds through sexuality education and value-based learning.

We extend our heartfelt gratitude to GeBBS Healthcare Solutions for supporting this mission from the month of April 2024. ***A Vision Born in 2001*** Project 'KSHITIJ' was conceived in 2001 when SAKAR identified a growing concern—an increasing number of unmarried mothers due to a lack of awareness about sexuality education and value-based guidance among teenagers.

Over the past 22 years, this initiative has evolved into a beacon of change, reaching over 300,000 individuals, including students, parents, and educators. ***A Milestone Partnership in 2024*** The year 2024 marked a significant milestone when GeBBS Healthcare Solutions partnered with us in April.

With their invaluable support, Project 'KSHITIJ' expanded its reach and impact through a series of structured programs: ***Programs Conducted After GeBBS Healthcare Solutions' Support*** 13 schools and 4 colleges benefited from our sessions.

48 student sessions reached 6,043 young minds, equipping them with essential knowledge on sexuality education and responsible decision-making.

12 parent sessions empowered 1,184 participants, helping them understand and communicate effectively with their children on crucial topics.

5 teacher sessions impacted 161 educators (Teachers), enabling them to foster a safe and informed learning environment for students.

Recognizing that one-time sessions are not enough for lasting impact, we took a step further by conducting follow-up sessions for the same beneficiaries. These sessions ensured deeper engagement and reinforced learning, leading to long-term behavioral changes. ***A Growing Movement*** The impact of 'KSHITIJ' has sparked a ripple effect.

Schools across Chhatrapati Sambhajnagar are reaching out to request sessions for their students. Parents have approached us, advocating for these crucial discussions in residential communities, emphasizing the importance of this education in shaping a better society.

None of this would have been possible without the unwavering commitment and generosity of GeBBS Healthcare Solutions.

Their partnership has been a true catalyst, amplifying our efforts and enabling us to bring about real, measurable change.

A Future Built on Awareness and Education Project 'KSHITIJ' is more than just a program—it is a movement.

It is a collective effort to shape a generation that is informed, responsible, and resilient. Together, we are building a brighter future.
